ILLINOIS TERMINAL WRECK.

Six Cars Went Into a Ravine at Godding, the chief grain inspector, requesting that great care be taken in the inspection of wheat, so that each grade would be kept pure of its kind, and especially that No. 65 on the Illinois Terminal out of Edwardsville for Alton was wrocked degree any hard wheat.

Mixed train No. 55 on the Illinois Terminal out of Edwardsyllie for Alton was wrecked last evening at the foot of Cotter Hill, the heaviest grade on the read. After half the train had passed, a defective joint broke and derailed the rear portion. Six cars of merchandise were thrown down a ravine and dashed to pieces, and those which were left above were piled on top of each other in a tangled and broken mass. The passenger coach at the rear left the track, but did not overturn.

None of the trainmen or passengers was injured, though some had narrow escapes. At the foot of the embankment where the wreck occurred is a farmhouse. The cars that were thrown into the ravine would undoubtedly have crashed into it had it not been fra huge oak tree standing in the way, which either stopped or turned them aside. HURT BY A CAR—George Turner of No. 443 Norfolk avenue was struck by car No. 28 of the Southern Electric division, while crossing the track at Sixth and Sprues streets, and suffered a fracture of the left leg. He was taken to the City Hospital, where his injury was pronounced serious. The car was in charge of Motorman M. P. Marshall and Conductor W. Nelson.
